

BOSSTAG XT30 (AM)

Security tag with smooth Pin

Security: High Detection Range: High

Boss XT30 comes with our high security XT pin lock mechanism. That means it can't be removed by other available high strength magnets. The large smooth pin head resists pin shaft tampering.

XT Lock. Common Superlock and Standard Lock magnetic detachers are unable to release the pin from this tag. The high strength lock mechanism in the XT30 renders weaker detachers that may be used by shoplifters useless. Our XT Lock detachers can open this tag and just about any other magnetic tag.

Flexibility. Flexible and scalable with multiple tags in one. Use as a high security clothing tag or you can pick from four different compatible pins: black, ink, or a lanyard for attaching to accessories.

RFID Ready

Lanyard Ready

Oversized Security Pin-Head. Compared to standard tags that have small pin heads, we increased the pin head size to 30mm (double the size of normal pins). This feature reduces the chance of a shoplifter cutting the pin shaft.

Smooth Pin Included. The tag accepts smooth or grooved pins. The smooth pin will not damage threads like grooved pins do.

Ink Pin. At any stage security can be dramatically upgraded by replacing the standard pin with the addition of our ink filled pin. Nothing stops a professional shoplifter like the 25mm round ink pin.

Features

Minimum Order QTY	500 Units
Includes Pin	Yes
Ink Feature	No
Ink Pin Compatible	Yes
Pin Parking	No
RFID Ready	Yes
Size	35 x 30mm
Weight	12.6g (without pin)
Colour and Frequency	Reference
